

WEBB & BROWN-NEAVES¹⁹⁷⁸

WELCOME TO CLASSIC, *quietly enduring.*

This lookbook is a curated journey through timeless design, where balance, beauty and tradition come together with quiet confidence.

From the tailored elegance of Traditional to the warmth of Mid-Century and the relaxed charm of Australiana, each direction offers a grounded sense of place.

Defined by soft palettes, enduring materials and thoughtful details, Classic style invites you to create a Webb & Brown-Neaves home with heritage, heart, and a sense of timeless belonging.

1 *Refined* SYMMETRY

Order brings serenity.
Mirrored layouts, matching fixtures,
and aligned sightlines create visual
rhythm. The architecture equivalent of
composure and grace.

2 *Elegant* LIGHTING

From chandeliers to wall sconces, lighting becomes sculpture.

Soft, ambient light enhances architectural form and celebrates the home's refined beauty.

3 Layered TEXTURES

Wood, steel, tiles and fabric.

A tactile mix that feels both familiar and luxurious.

Layering adds depth, comfort and warmth to every room.

4 *Soft* PALETTES

Creams, taupes, and muted tones bring a gentle sophistication. Paired with deep accents and light tones, these hues create spaces that feel timeless, elegant, and calm.

5 *Heritage* REIMAGINED

Inspired by the past, designed for now.
Classic style honours tradition while
embracing today's comforts of open
plan living and connectivity, creating
homes with both legacy and livability.

6 *Sculpted* STAIRCASES

A staircase is more than structure, it's a statement of grace.

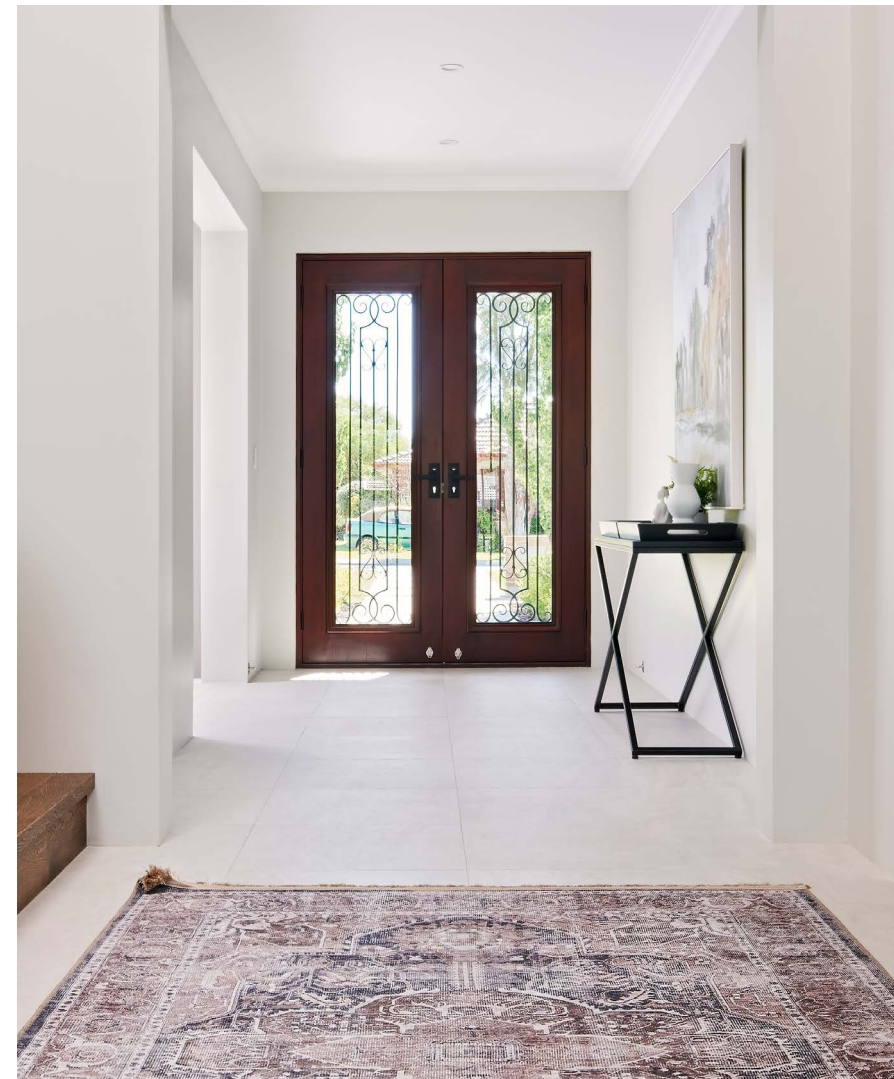

Curved balustrades, voids, timber treads, and elegant handrails bring movement and artistry to the heart of the home.

Classic design celebrates this transition space as both functional and beautifully composed.

7 Graceful ENTRYWAYS

First impressions matter.
Arched doors, framed vistas and
statement lighting create a sense
of arrival that feels dignified and
timeless, setting the tone for the calm,
considered spaces beyond.

8 *Statement* DETAILING

Curves, cornices, panelling, coffered ceilings, balustrading, these are the quiet moments of craftsmanship that elevate a space. In Classic homes, it's the detail that defines the difference.

9 *Artful* BALANCE

Classic interiors are never loud. They're composed. Each element, furniture, artwork, lighting, is chosen for proportion and poise, creating a home that feels curated, not decorated.

10 *Evolved* OPEN LIVING

Once defined by formal rooms and quiet separation, Classic design has gracefully embraced open living. Today, kitchens, dining and living areas flow together while maintaining their sense of purpose and poise.
